Dear Mr. Hestmark:

We appreciate your clarifying comments on the Technical Memorandum (TM) No.1, Industrial Area Surface Water and Sediment Field Sampling Plan, January 1995. Addendum to Phase I RCRA Facility Investigation/ Remedial Investigation (RFI/RI) Work Plan, Operable Unit (OU) 12, and concur with your observations regarding confusing titles and relationships amongst various documents pertaining to OU 12.

With regards to the time dependent sampling plan in question, we have already progressed through two stages of surface water and sediment sampling. Work stoppage in the Industrial Area (IA) OUs may preempt data acquisition for the third and final stage at this time. With reference to your "Specific Comments," we intend to address them once the cleanup strategy for the IA has been redefined. We will however keep your comments under advisement until such time.

If you have additional questions, please call Ravi Batra at 966-9664.

Sincerely,

Steven W. Slaten
